Tax Time Nearly Out.

The time for paying taxes without the penalty will soon be out. The time expires on the 31st instant, and as so many have not paid, it would be well to attend to it at once, for at the last there will be a rush.

To County Teachers.

Dr. Geo. B. Cromer has made special arrangements for the college party and a number of teachers and pupils of the graded schools, to go by special train to the Charleston Exposition, Tuesday morning, April 1st. Dr. Cromer has kindly consented to take in with his party all teachers of the county who would like to attend the Exposition at that time. I should like to see every teacher in the county go to the Exposition, and all who desire to join in with the college party are requested to write to me at earliest convenience. The fare will be \$3.46.

Respectfully,
EUG S. WERTS,
County Supt

As to the Commutation Tax.

As one of our correspondents calls on the editor to explain the road law, and wants to know if one dollar exempts one from road working for a year, we will state that such is the law, so understood by us and so construed and explained to County Treasurer Eppe, provided that the one dollar road commutation tax is paid to the treasurer by the 31st of March. If this dollar is not paid by the 31st inst., the actual service required by the law will have to be done on the roads. It seems to us that the cheapest thing for all to do is to pay the dollar to the treasurer between now and the 31st and get a clear receipt for the year.

Died in Texas.

Mrs. Jane A. Long received the following sad message from Texas a few days ago:
Houston, Texas, March 11, 1902.
Dear Sister:
Today Tom passed in great peace to The Blissful Bountiful Land—The bright benignant and beautiful Beyond. Many of our Newberry readers remember the deceased as a little golden-haired boy, the eldest son of Mr. J. G. Martin, who removed to Texas several years ago. Thomas Patrick Martin had developed into a young man of affable disposition and steady habits. As such he enjoyed many tangible evidences of love and esteem from those with whom he associated both in pleasure and business.

He Does Not Make It.

Your grocer may be perfectly conscientious in recommending another flour to be "just as pure as Clifton," but he does not and cannot know it to be so, because he has nothing to do with its making. It behooves you, therefore, to buy an absolutely guaranteed flour—one that the Anti-Adulteration League puts its registered trade mark on—and such a flour is Branford's "Clifton." It is not only absolutely pure, but it is the best winter wheat patent flour in the market. Ask your grocer for it.
If you want a cheaper flour buy our "White Fawn" (half patent) or spotless (straight). They are just as pure, though not so white as "Clifton."
For sale by Palmist Grocery Co. and E. R. Hipp in Newberry, and J. D. Stokes at Whitman.

Every Miller Had the Opportunity.

Nearly all mills made pure flour before the anti-adulteration league was organized. The league was organized when the adulteration of flour first began, and was designed to stop it in its incipency. Every flour miller in the United States was invited to join the league, but the fact that he had to make oath that he never had and never would adulterate his flour, and in addition had to put up a forfeit of \$1,000 to strengthen his oath, caused a large number to hesitate, and finally to decline. Branford Mills, manufacturer of the "Clifton," was among the first to join, because it never had and never expected to adulterate its flour. Is not such a stand worth considering when you buy flour with which to feed your children, especially when a poisonous mineral is being used to adulterate it? We think so. Then order "Clifton" of your grocer. Our "White Fawn" (half patent) and Spotless (straight) are sold under the same guarantee. These have it: E. R. Hipp and Palmist Grocery Co. in Newberry and J. D. Stokes in Whitman.

Cold Comfort and Doctors.

Doctors say neuralgia is not dangerous. This is poor consolation to the sufferer who feels as if his face were pierced with hot needles and torn with a thousand pairs of pinners. A word of advice to him: stay indoors and use Perry Davis' Painkiller. The blessed freedom from pain which follows his treatment cannot be told. There is but one Painkiller, Perry Davis'.

A BEAUTIFUL OPENING.

Grand Display at the Riser Millinery—Pretty Goods Artistically Arranged.

When reviewing the opening at the Riser Millinery Co.'s it was evident that the hand of an artist had been among both the decorations and the hats. It is at all times refreshing to rest the eye upon something new, something artistic, and there is nothing more pleasing to woman-kind than a new bonnet.

A large mirror had been placed on the floor of the window and around this foliage was arranged so that it gave one the impression of looking down into a deep pool of clear water with the overhanging boughs reflected in the depths. Lovely ferns, palms, frezias, and call lilies were banked against the walls and bowls of violets and hyacinths lent their fragrance to enhance the vision. A large collection of beautiful and stylish hats were displayed and as usual the ladies think "the millinery this season is prettier than ever."

DROWNED IN SALUDA.

Four Negroes Drown While Attempting to Cross the River in a Bateau.

Tuesday morning Mr. Geo. W. Dominick and his son, Mr. G. Elsey Dominick, together with five negro men, started to cross Saluda river in a bateau, near McNary's Ferry, and four of the negroes were drowned.

The boat had scarcely left the bank when it began to sink on account of its heavy load, and Mr. Dominick, his son, and the negro that was in the end of the boat nearest the bank, succeeded in getting out. The other four, all negroes, were drowned. Their names were, Fred Hawkins, Ernest Lindsay, Jim Oxner and George Seary.

The negroes it is said all bore good names and were industrious and hard working men.

A FATAL ACCIDENT.

Young Hoyt King Accidentally Killed by a Freight Train at Toccoa, Ga.

The sad news reached Newberry last Tuesday morning about 11 o'clock that Hoyt King had been accidentally killed by a freight train at Toccoa, Ga.

Hoyt was a bright boy of about seventeen years of age, and was a son of Rev. Mrs. Chas. H. Armstrong, of this city.

He in company with his playmate, Master White Fant, left Newberry on Friday before the accident occurred, making their way they claimed to Arizona, a boyish notion that had possessed them.

They had made their way as far as Toccoa, Ga., and had decided to return home and was about to begin the journey homeward, when it is supposed; as we are informed that no one saw the boy when the accident occurred, that in attempting to get on the train which was in motion at the time, his feet slipped and he was thrown beneath the wheels. Both legs were cut off by the wheels, and a severe bruise on the head. He lived about two hours after the accident happened, when he died.

The occurrence was indeed a sad one, and his relatives and friend have the sympathy of the whole people.

Rev. and Mrs. Armstrong left on the first train for Toccoa, Ga., and carried the body of their unfortunate son to their old home at Sherryville, Tenn., for burial.

BEAUTIFUL CREATION.

The Magnificent Display of the Mower Co. Yesterday—Thousands of Lady Visitors.

We had the pleasure of visiting the stores of the C. & G. S. Mower Co. yesterday when they had their annual spring opening and this firm spares no pains to make these openings all they should be. The front windows first attracted our attention. One being artistically draped in the new white and black effects nothing but white and black. We will not try and tell you how pretty it was, but will simply say 'twas lovely. The left window was filled with gauzy silk materials in a variety of colors—materials of great beauty. Going inside the store, mingling with the mass of visitors, all admiring the lovely spring goods, we became enthusiastic in our admiration. We cannot tell you all we saw, but we mention the lovely linens, grenadines, silks, Tosca nets, and millinery. The hats are simply gorgeous things of great beauty, with their gauzy materials, lovely braids, shining buckles, and beautiful flowers, combined in many artistic designs. Some of the hats are all white, some are all black, some are small, others large; in fact, the impression made on us was that there is here a hat for all.

This progressive firm never does things by halves and this opening is in nowise an exception to the rule. Everything is complete and you missed a treat if you failed to visit this opening.

If members of the "Hay Fever" Association would use Dr. King's New Discovery for Consumption, the club would go to pieces, for it always cures this malady, and Asthma, the kind that baffles the doctors—it wholly drives from the system. COLUMBIA COLLEGE FOR WOMEN.

Miss McClintock, of Newberry, to succeed Dr. Pell as its President.

Dr. Pell, president of the Columbia College for Women, has been elected to and accepted the presidency of Converse College, Spartanburg, and it will be gratifying to the people of Newberry to hear that in the future that institution is to have at its head a Newberry lady. The following is taken from the State of the 20th:

"While no announcement has yet been made as to the personnel of the faculty for next year it is understood that hereafter all members of the teaching force will be women, following the policy pursued so successfully in many leading female college, and it is further stated that Miss McClintock, who has been the most efficient lady principal, is to be made president. Miss McClintock's administrative and teaching ability has long been recognized, and the college will doubtless continue its excellent work under her executive direction.

THE COUNCIL MEETING.

A Business Meeting of the City Council—Opera House Leased—Bell Telephone Question Acted on—Alderman Wells in Absence.

The regular meeting of the city council was held Wednesday afternoon at 4 o'clock.

Several questions of interest were to come before the meeting, and the meeting was delayed from Tuesday night until Wednesday afternoon, in order that the newly elected alderman from Ward one might be sworn in and be present at the meeting.

Mr. Wells took the oath of office on Wednesday morning, and this was his first service in a public capacity.

OPERA HOUSE LEASED.

Besides the usual routine business to come before the city fathers, the consideration of the bids for the lease of the opera house for a term of three years was taken up. There were three bids, but that of Messrs. D. F. Pifer, P. J. Voss, and J. W. Earhardt, being the highest, they were granted the lease. These young men, we understand, contemplate forming what is to be known as the Newberry Amusement Company, and intend to bring to Newberry the very best attractions that it is possible to get South.

THE TELEPHONE QUESTION.

The council in the telephone matter stood to the former ordinance passed granting the Bell Company a franchise with the same restrictions under which the local company is working—with this change, that the franchise be granted for thirty years instead of twenty, with the understanding that the local company's franchise be extended thirty years, if they so desired it.

Mr. F. C. Fraser, representing the Bell Company, was in the city to appear before the council if necessary in the interest of his company, and in an interview with him yesterday he said:

"Your council has agreed to place term of franchise for thirty instead of twenty years, but made no disposition of the rate question."

"The proposition of the Bell Telephone Company which has been rejected by council was:

"1. To install a system with metallic circuit and long distance transmitters.
"2. To set all poles under the supervision of the street committee or city officials.

"3. To give free service to the branches of the city government.

"4. To provide one cross arm on each pole for fire alarm service.

"5. To abide by rates fixed by council, viz \$3.50 per business phone per month and \$2.00 per residence phone per month for five years.

"6. To charge no more for service in Newberry than in any city of like size in which this company does business.

"7. Not to charge a lower rate than any competing company for similar service.

"8. To permit the city council to condemn any material not considered first class in every respect or in any way dangerous."

"9. To accept a franchise of thirty years duration instead of twenty years as offered."

"My company has made every honorable effort to effect a compromise of the differences existing."

"The people of the city are heartily in favor of the coming of my company to the city, but the town council insists on imposing restrictions that are prohibitory."

"We are not able to foresee the future and hence cannot agree to fixed rates for an indefinite future time."

"All of this ground has been carefully gone over and it is not necessary for me to review the reasons why the action of council is not considered fair to my company."

"We ask, in fine, nothing that we are not willing for any competing company to have. Mr. Floyd and associates, though operating under a franchise with the restrictions that are objectionable to my company, certainly knew the fallacy of such a franchise. They have recently bought property and entered into competition with the Bell people under franchises not imposing the restrictions that are placed on us here."

"Surely the town council of Newberry is not more fearful than these gentlemen themselves."

"A fair and equitable plan of settling the matter I think is the removal of restrictions placed upon Messrs. Floyd and associates and placing us upon the same footing here as elsewhere."

"The construction gang is making good time on this line and will soon be at Newberry."

"It is a source of deep regret that we are forced to build around your city, under the present status, but we are still hopeful that the council will admit us."
